

Public Health Science AS-T (IGTEC GE Track)

+If you have completed coursework at another college and/or are starting in a semester other than a Fall term, please follow up with the Counseling Department to determine if this sequence is appropriate for your academic and career goals.

Program Description: Public Health focuses on promoting healthy lifestyles, preventing disease, and protecting the health of both individuals and communities.

The Associate in Science in Public Health Science for Transfer degree provides students with a solid foundation in public health concepts. The degree opens doors to entry-level careers in a variety of settings, including hospitals, state and local health departments, non-profit agencies, educational institutions, federal agencies, research organizations, and community health clinics.

After completion of the AS-T in Public Health Science, transfer, and further education, additional career paths are possible including health educator, emergency preparedness specialists, health care manager, nurse, public health policymakers, physical therapist, physician assistant, nutritionist, community college instructor, physician, epidemiologist, nurse practitioner, occupational health and safety professionals, health informatics, scientists and researchers.

Whether students choose selective employment or transfer and further education, they have the opportunity to become the new generation of health professionals prepared to face the emerging challenges to human health in our community and the world. [The Student Transfer Achievement Reform Act \(SB 1440\)](#).

Program SLO: Demonstrate the core science and health education principles necessary to function in public health careers.

Important Transfer Information: The sequence listed below, may not meet all your transfer admissions requirements. Connect with a counselor to develop an individual student education plan through the Counseling Department @ <https://www.canyons.edu/counseling> or (661) 362-3288/(661) 362-3811.
