Ms. Jenkins noted that shortly after Dr. Van Hook was hired, the Board encouraged the administration to do what they had to do to build the capacity, and Dr. Van Hook was a leader in that effort. People criticized us and thought we were doing too much and too fast, but in the long run, it enabled us to be where we are today and making less cuts. She added that the administrative leadership and the cooperation of faculty who worked hard to do so.

Dr. Van Hook provided a brief historical review of where we were in 1988, during a time of very high unfunded growth and the effect it ultimately had on students, because while we kept offering courses, we ended up cutting amenities that students need (ie, counseling services). She also noted that when you fund overcap FTES, it can put a district in an unhealthy financial situation where you erode your contingency, you become less flexible, unable to take advantage of opportunities, and could end up on the state Chancellor's Office watch list.

It was noted that the District continues to maintain a 6% reserve. The Board moved Adoption of the 2008-2009 Budgets as follows:
