## INDEPENDENT AUDITORS' REPORT

Board of Trustees  
Citizen's Oversight Committee  
Santa Clarita Community College District  
Santa Clarita, CA

We have audited the accompanying financial statements of the Measure C General Obligation Bonds (the Bond Funds) of Santa Clarita Community College District (the District) as of June 30, 2006, as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As discussed in Note #1 of the Notes to Financial Statements, the financial statements present only the Bond Funds and do not purport to, and do not, present fairly the financial position of the District as of June 30, 2006, and the changes in its financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America. Also, as discussed in Note #2 of the Notes to Financial Statements, the Bond Funds' financial statements are prepared on the modified accrual basis, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position - modified accrual basis of the Measure C General Obligation Bonds of Santa Clarita Community College District as of June 30, 2006, and the results of its operations - modified accrual basis for the year then ended, in conformity with the basis of accounting described in Note #2.

**NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2006**

***NOTE #1 - ORGANIZATION AND NATURE OF ACTIVITIES***

The Measure C General Obligation Bonds (the Bond Funds) are governmental funds of Santa Clarita Community College District (the District). These funds are used to account for the activity of the Proposition 39 Measure C General Obligation Bonds approved by the voters of the District. These financial statements present only the Bond Funds and do not purport to, and do not, present fairly the financial position of the District and the changes in its financial position in conformity with accounting standards generally accepted in the United States of America.

***NOTE #2 - SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES***

**Financial Statement Presentation**

The financial statements of the Bond Funds have been prepared on the modified accrual basis of accounting. The statement of activities is a statement of financial activities related to the current reporting period. Using this method, revenues are recognized when they are both measurable and available, and expenses are recognized when goods are received or services are rendered.

**Use of Estimates**

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect reported amounts of assets and liabilities at the reporting date, and revenues and expenses during the reporting period. Actual results could differ from those estimates.

***NOTE #3 - INVESTMENTS***

**Policies and Practices**

The District is authorized under California Government Code to make direct investments in local agency bonds, notes, or warrants within the State; U.S. Treasury instruments; registered State warrants or treasury notes; securities of the U.S. Government, or its agencies; bankers acceptances; commercial paper; certificates of deposit placed with commercial banks and/or savings and loan companies; repurchase or reverse repurchase agreements; medium term corporate notes; shares of beneficial interest issued by diversified management companies, certificates of participation, obligations with first priority security; and collateralized mortgage obligations.

**Investment in County Treasury**

The District is considered to be an involuntary participant in an external investment pool as the District is required to deposit all receipts and collections of monies with their County Treasurer (Education Code Section 41001). The fair value of the District's investment in the pool is reported in the accounting financial statements at amounts based upon the District's pro-rata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

**General Authorizations**

JUNE 30, 2006**

**Summary of Investments**

Investments as of June 30, 2006, consist of the following:

Investments	<u>\$ 36,427,555</u>
-------------	----------------------

**Interest Rate Risk**

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District manages its exposure to interest rate risk by primarily investing in money market funds and the County Pool. The District has deposited all bond funds in the Los Angeles County Pool.

**Specific Identification**

Information about the sensitivity of the fair values of the District's investments to market interest rate fluctuation is provided by the following schedule that shows the distribution of the District's investment by maturity:

Investment Type	Fair Value	Maturity Date
County Pool - Los Angeles	\$ 36,343,029	251 *

\* Weighted average days to maturity.

**Credit Risk**

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required by the California Government Code, the District's investment policy, or debt agreements, and the actual rating as of the year-end for each investment type.

Investment Type	Fair Value	Minimum Legal Rating	Rating June 30, 2006
County Pool - Los Angeles	\$ 36,343,029	Not required	Not rated
