Ms. Garasi highlighted the Committee's roles and responsibilities, which are to review the expenditures of the bond funds to ensure the District's compliance with state law as contained in the statements within the Santa Clarita Community College District Board of Trustees Resolution No. 2006/07-04 and report the District's compliance to the public.

She reminded the members their duty is to review expenditures to make sure they are in compliance, not to direct the District on how to spend the funds.

Ms Garasi reminded the members they serve at the pleasure of the SCCCD Board of Trustees who could remove them from the Committee if so desired. She further discussed the attendance of the members and the term of their service.

Upon request by several Committee members, Ms Coleal will obtain a legal opinion as to the definition of "term" within the roles and responsibilities and provide that explanation to the members.

Dr. Van Hook discussed the Santa Clarita Community College District Board of Trustees Resolution (2006/07-04) background/analysis providing some of the reasons which influenced the District's decision to place a bond measure on the November 2006 ballot. They included the following:

- The District's enrollment exceeded growth expectations.
- The District's lack of adequate classroom/lab spaces.
- The District's need to serve increasing business/industry partnerships.
- The rate of the local high school district's students coming to COC increased from 20% to over 60%.

After a bond feasibility survey and further research, she made a recommendation to the Board of Trustees to:

- Establish a bond measure,
- Seek \$160M, and
- Place it on the November 7, 2006 ballot.
