NEW COURSE PROPOSALS – DISCUSSION OF NEED

The following new course proposals will be discussed at this meeting with the authors of the proposals to determine the need of adding the course to our curriculum. The course outlines will not be reviewed at this meeting.

Subject & Number	Title	Rationale for New Course Proposal	Author	Effective
HIST-250	World Environmental History	History 250 would benefit a wide variety of COC students. First, it will benefit history majors by offering a new history course focused on an important methodology environmental history—not currently being taught at COC. It would also help fill a major gap in the department's current world history curriculum, which, at present, lacks the second half of the world history survey. The majority of History 250 will focus on events since 1500, therefore, it will help remediate this problem. Second, History 250 would benefit students enrolled in the college's Environmental Science and Environmental Studies programs by providing relevant social science or humanities credits and/or contextualizing the concepts learned in each program. Finally, History 250 will strengthen the curriculum being developed for the Bachelor of Arts in Sustainable Architecture.	E. Altenbernd	TBD

NEW NONCREDIT COURSE PROPOSALS DISCUSSION OF NEED – CONSENT CALENDAR

The following new course proposals were discussed at a previous Noncredit Curriculum Committee Meeting with the authors of the proposals to determine the need of adding the course to our curriculum. The need for these new course proposals were approved at the [November 1, 2022 Noncredit Curriculum Committee](#) meeting.

Subject & Number	Title	Rationale for New Course Proposal	Author	Effective
NC.VOC-010	Physical Fitness Preparation for Public Safety I	One of the biggest obstacles to employment as a Firefighter or Law Enforcement Officer is meeting the physical fitness requirements of these careers. This program reflects a regular concern from Police and Fire training/academy staff and recruiters that many applicants are ill prepared for the physical components of the Police and Fire Academies. Academy training staff have repeatedly indicated that physical fitness is the top disqualifier from the Police and Fire Academies. These professions require peak human physical and mental performance. It is therefore critical that our pre-service students understand and build upon the foundations of healthy lifestyles in order to meet or exceed the physical fitness requirements of Public Safety careers.
