- AP 4022. The Academic Senate will review & vote on this policy at the 12/8 meeting. Omar, Patrick, Garrett, and Tricai worked with the Policy Committee to finalize this policy about Course Approvals. Most of it reflects pertinent aspects of the Operating Procedures we already reviewed:

Policy = what we do, Procedure = how we do it.

What is new (or revived) in this policy are the archiving policies: A course which isn't revised after 5 years may be archived. A course which is required for an academic program and not offered at least once every two academic years may be archived. A course which isn't required for an academic program (i.e. electives) and which is not offered at least once every five academic years may be archived

Further archiving details: Faculty will have a chance to present extenuating circumstances to the Curriculum Committee for courses which haven't been offered in the appropriate amount of time. A course which is archived will no longer be in our Course Catalog. An archived course can be brought back if the interested faculty go through the process for proposing a new course.

- Anticipating the Possible Impact of AB 928: The Protection of Lifelong Learning Resolution: This resolution will be presented at the 12/8 Academic Senate meeting. It urges our CoC Board of Trustees to advocate for the CSU's to make Lifelong Learning & Self-Development a graduation requirement rather than an upper division graduation requirement. Wendy Brill & FACC more broadly are recommending Community Colleges across the state do something similar. If the CSU's agree, students could complete this requirement at either Community Colleges or at the CSU's. This is similar to the current American Institutions graduation requirement for the CSU's. It is also similar to the Language Other than English graduation requirement that the UC's will put in place with
