Science Center Update

Did you know that the Canyon Country Campus is building a new Science Center to expand opportunities for students? This exciting, 4-story construction project continues this Spring, and is visible from most of the campus. We look forward to ribbon cutting the facility in late Fall 2019, and opening for student instruction in Spring 2020. The 55,000 square-foot project features 19 classrooms, including 4 state of the art Chemistry labs, 4 Biology labs, lecture and large-lecture rooms, group study and conference space, and offices.

The Canyon Country Campus is building for the future!
